The key for SUMLEV is as follows:

010 = Nation

040 = State and/or Statistical Equivalent

050 = County and/or Statistical Equivalent

Notes: The estimates are based on the 2010 Census and were created without incorporation or consideration of the 2020 Census results. The estimates add births to, subtract deaths from, and add net migration to the enumerated resident population from the 2010 Census. The enumerated resident population is the total population (citizen and noncitizen) with usual residence in Puerto Rico. See https://www.census.gov/glossary/#term_Apportionmentpopulation and https://www.census.gov/glossary/#term_Residentpopulation. The estimates reflect changes to the April 1, 2010 population due to the Count Question Resolution program and geographic program revisions.

All geographic boundaries for the 2020 population estimates series are as of January 1, 2020. For population estimates methodology statements, see <https://www.census.gov/programs-surveys/popest/technical-documentation/methodology.html>

In July 2021, estimates as of April 1, 2020 were appended to this file. No changes were made to the data originally released in May 2021.
